

ENVIROSPRAY 300 SPRAY APPLIED ACOUSTICS

Melbourne University - Off White

Westfield Shopping Centre - Steel Grey

Excessive Reverberation within enclosed spaces, result in poor acoustics, elevated noise levels and general aural discomfort.

Envirospray 300 (E300) is a truly cost effective sound absorber, used world wide, to quickly achieve excellent echo control.

E300 is simply spray applied to available hard surfaces (walls / roof / ceilings), in the preferred colour & thickness - and the sound clarity problem is resolved - forever.

Work Areas & Libraries
